emergence

Saturation of information makes the need to 'meet' the listener/viewer/reader (=customer) more intense.

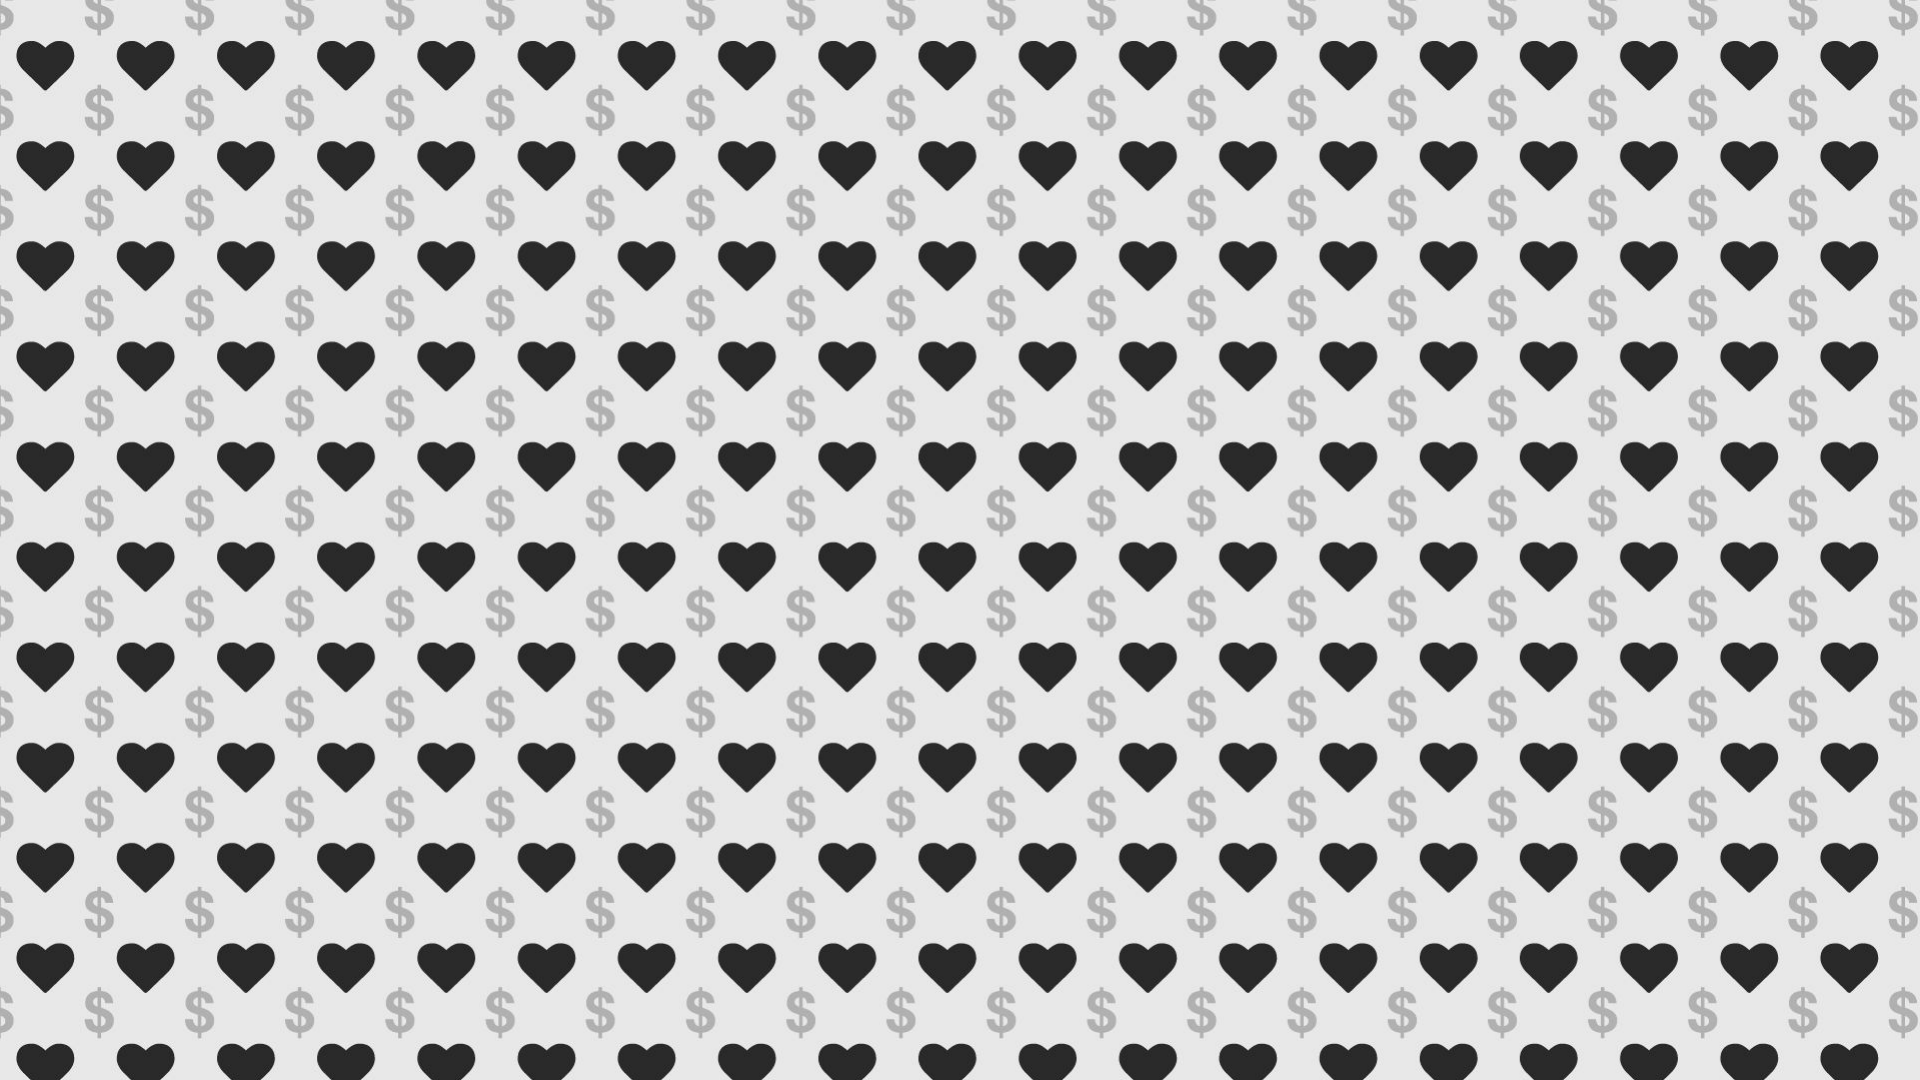

Be on **the side of the fan**.

Availability of artwork through the internet changes the essence of the physical format. **Access vs Ownership**

Sell expensive to a **niche market** instead of the big audience that chooses online content anyway.

More likely to sell **at events** (no record stores left) or **online** (viva Amazon).

Mainstream always borrows
from subculture
